

# Producer Price Index (PPI)\_Pruebas\_2014

Last modified Thursday the 27th of October, 2016

The Producer Price Index (PPI) measures the average change over time in prices from the first commercial transaction for a basket of products. It excludes services. (for details see methodological document <http://www.dane.gov.co/index.php/precios-e-inflacion/indice-de-precios-al-productor>).

Since January 2015, DANE published a new PPI, base: Dec-2014 = 100, with a new basket of goods using ISIC version 4, weights based on national accounts of 2011 and trade data from 2009 to 2012. It also started producing the PPI of national production which includes prices of goods produced and consumed inside the country and exports, and continued reporting the PPI of internal supply, which includes prices of goods produced and consumed inside the country and imports.

There are three classifications of goods in the PPI: according to economic activity (ISIC 4.0), by use or economic destination of goods (final commodities stage, raw materials, capital goods and materials for construction) and according to the source of goods (produced and consumed, imported and exported).

## **PPI - Annual DANE's Data Series (Dec - 2014 = 100)**

Exportable to various formats - total PPP by economic activityd económica - Per calendar year

**Excel format - Historical Data Series** **Grouped by economic activity**

(Agriculture, forestry, hunting and fishing, mining and manufacturing)

(Information available since 1999)

Exportable to various formats - total PPP by economic activityd económica - Per calendar year

**Excel format - Historical Data Series**

### **Grouped by source of goods**

(Produced and consumed, and imported)

(Information available since 1970)

**Excel format - Historical Data Series**

### **Grouped by use or economic destination of goods**

(Raw materials, Consumption goods, Capital goods, Materials for construction)

(Information available since 1970)

Exportable to various formats - total PPP by economic activityd económica - Per calendar year

**Excel format - Historical Data Series**

### **Grouped by source of goods and economic activity**

(Information available since December 2014)

## PPI - Monthly DANE's Data Series (Dec - 2014 = 100)

### Formats Grouped by economic activity

(Agriculture, forestry, hunting and fishing, mining and manufacturing)

#### Excel format - Historical Data Series

Per calendar year

(Information available since June 1999)

For a given date range

(Information available since June 1999)

### Formats

#### Grouped by source of goods

(Produced and consumed, and imported)

**Excel format - Historical Data Series** Per calendar year

(Information available since January 1970)  For a given date range

(Information available since January 1970) **Formats Grouped by use or economic destination of goods**

(Raw materials, Consumption goods, Capital goods, Materials for construction)

**Excel format - Historical Data Series** Per calendar year

(Information available since January 1970)  For a given date range

(Information available since January 1970) **Formats Grouped by source of goods and economic activity**

**Excel format - Historical Data Series** Series per year

(Information available since December 2014)  For a given date range

(Information available since December 2014)
