

National Financial Accounts Bulletin by Institutional Sector - Third Quarter 2023

Download (only in Spanish) Financial Account Flows - SCN 2008 (only in Spanish) Financial Account Balances - SCN 2008 (only in Spanish) AUTHORS AND/OR EDITORS Office for Monetary Policy and Economic Information Technical and Economic Information Department Financial Accounts Section
 Below is a summary of the financial accounts by institutional sector and by financial instrument. For further details, please refer to the **Technical Bulletin**.

Publication Date: Monday, 19 of February 2024 Saving-investment flows for the third quarter of 2023¹. By institutional sector

According to the Financial Accounts calculated by *Banco de la República* (the Central Bank of Colombia), in the third quarter of 2023, the current account deficit of the Colombian economy reached 1.4% of the quarterly Gross Domestic Product (GDP), compared to 6.4% in the same period of 2022. This is mainly explained by the deficits of the National Central Government (0.7%) and Households (0.4%).

Source: *Banco de la República* - Financial Accounts

Compared to the third quarter of 2022, financing needs decreased by 5.0 pp. This was mainly explained by the lower net financing needs of Non-Financial Corporations (4.8 pp.) and by the lower net debt of Households (1.9 pp.). These changes were partially offset by the decrease in the flow of net assets of Financial Corporations (-1.0 pp.), which went from registering a surplus of 0.6% to a deficit of 0.3% of quarterly GDP, and by the higher net financing needs of the General Government (-0.6 pp.).

2. By financial instrument / net external financing

The negative quarterly savings-investment balance of the Colombian economy was covered by net external financing flows equivalent to 1.4% of quarterly GDP. Net inflows of financial resources from the rest of the world were channeled mainly through foreign direct investment and other equity investments (F5) of 2.6% and through loans (F4) of 2.2%. This was offset by an increase in debt securities (F3) by 5.4% of quarterly GDP.

Financial Account Balances for the third quarter of 2023. Net financial position by institutional sector

At the end of the third quarter of 2023, the Colombian economy recorded a net debtor position with the rest of the world equivalent to -51.7% of annual GDP. This is explained by the net debtor position of Non-Financial Corporations (-82.6%) and the General Government (-31.2%). This was partially offset by the net creditor positions of Households (50.1%) and Financial Corporations (11.6%).

Compared to the third quarter of 2022, there was an increase of 1.4 pp in the external debtor position of the economy, explained by the reduction in the creditor position of Households (6.5 pp) and Financial Corporations (3.8 pp). These changes were partially offset by the decrease in the net debtor positions of Non-Financial Corporations (5.9 pp) and the General Government (3.0 pp).

2. Net external position by financial instrument

At the end of the third quarter of 2023, the net debtor position of the Colombian economy with the rest of the world was mainly represented by equity (F5) of -35.1% and loans (F4) of -22.0% of annual GDP. This was partially offset by Colombian foreign holdings of deposits (F2) of 4.8% and Net accounts receivable or payable (F8) of 0.8%.

Compared to the third quarter of 2022, the increase in the economy's net debtor position by 1.4 pp was mainly due to the higher level of net debt through foreign direct investment and other equity investments by 5.5 pp.
