Banco de la República (the Central Bank of Colombia) obtained the EDGE Assess Certification in Equity and Inclusion at the Workplace

The EDGE certification is based on high global standards, including international legislation on gender equity and intersectionality. After a rigorous assessment, *Banco de la República* (the Central Bank of Colombia) obtained this certification, thus becoming the second central bank in Latin America to reach this milestone.

This was made possible thanks to the participation of Banrep employees in a survey conducted from 20 May to 04 June 2024, where they expressed a positive perception on various aspects evaluated under the EDGE (Economic Dividends for Gender Equality) global standard.

EDGE Assess highlighted *Banco de la República's* (the Central Bank of Colombia) commitment to diversity, gender equity, and inclusion in the workplace, driven by the implementation of various policies and practices that have positively impacted the well-being of its employees throughout the country.
