
[Exclusive Mailbox: UAI-inversionistas@banrep.gov.co](mailto:UAI-inversionistas@banrep.gov.co)

Banco de la República makes an effort to reinforce its communications on monetary policy and to consolidate relations with investors and market analysts. The objective, regarding this, is to have a better understanding of how these agents perceive the Colombian economy, as well as to improve the way the Bank conveys its policies and to be more transparent. Accordingly, this institutional electronic mailbox has been opened exclusively to strengthen these relations.

If you are an investor or market analyst and wish to have a bilateral meeting with the members of the Board of Directors and/or the Bank's technical staff, we invite you to contact our International Affairs Unit at the following address: UAI-inversionistas@banrep.gov.co. Requests will be answered considering the time available for such meetings (based on the agenda) and the blackout periods to be observed prior to each Board of Directors' meeting.

Remember, any other type of request must be submitted through one of the official channels in the [Public Service System](#) (only in Spanish).
