Blog *BanRep*: Performance and Outlook of the Colombian Economy

As usual, we devote the last Blog of the year to provide a preliminary assessment of the performance of the Colombian economy over the year about to end, as well as to examine its outlook. In keeping with its commitment to transparency, Banco de la República (the Central Bank of Colombia, BanRep) publishes these analyses in the Monetary Policy Report and the Report of the Board of Directors to the Congress of Colombia, which are complemented by other institutional publications.
