Published every six months, the Regional Economic Report (RER) offers an analysis of the Colombian economy from the general perspective, trade as a sector, government agencies and users of the RER.

The RER is regional in content and covers the various geographical areas that make up the country. It is a magazine that brings the topics it addresses, which are national, regional, sectoral, municipal and local.

The RER originated with an agreement between Ecuador's República and DANF, which is part of government entities have become involved in this endeavor as well, and the use of the magazine and
